Allergies and medical conditions

All information regarding your child's medical conditions should be written on their registration forms to ensure we provide the best care for your child. We are now producing updated health forms for any child with a specific condition, this could be asthma, eczema, allergic reactions etc, so please could you make staff aware of any conditions and medication your child may need. Along with the health plan we will provide a box for any medicines supplied, such as inhalers, Epi pens or creams, which will be used in case of emergencies. This will be kept in the nursery at all times. For the use of Epi pens and inhalers the staff need specific training for each individual child and may have to contact your doctor's surgery to access this training.
