

Please can all Bo-Peeps parents/carers apply sun cream before their child comes to nursery during the warmer weather.

Mornings where it is cloudy sun cream is still needed as the U.V. rays will still be high throughout the summer months.

The staff will reapply through the day as needed but this first application will ensure all the children are protected from the time they arrive at the nursery.

Sun cream sent to nursery will need to be labelled with your child's name and must be at least factor 30.

Many thanks
